About Us.

Nano Logistics was officially established in Egypt since 2018. However, the founders of the company have been actively involved in the shipping industry since 2005, gaining extensive experience in both liner and logistics fields.

With years of hands-on experience, the founders have developed an in-depth understanding of various shipping modes and their adaptability to different types of merchandise. Over time, they have built a strong network of professionals across all shipping modes, enabling them to overcome challenges, streamline the landing and delivery of goods, and facilitate customs transactions efficiently.

Our highly qualified team brings a wealth of expertise in the forwarding and shipping industry, with a particular focus on refrigerated containers. We are committed to providing the best and most efficient solutions to meet your ocean cargo requirements, whether it involves containers, breakbulk, flat racks, or LCL imports and exports.

We aim to foster cooperation with international shipping agencies worldwide, including Europe, America, Africa, and the Near and Far East. Additionally, we are dedicated to expanding our operations by building partnerships with new clients and advanced shipping agencies. Our success is grounded in our unwavering commitment to honesty, accuracy, advanced packaging techniques, and the utilization of state-of-the-art land, water, and air freight solutions.

Why Choose Nano?

- **Regional Expertise:** Our team includes skilled, experienced, and reliable local representation in the logistics field, with over 10 years of experience.
- **Efficiency:** Save time and money with streamlined processes, intelligent technology, and fast, accurate documentation.
- **Flexibility:** Our approach to freight is designed to tackle your toughest supply chain challenges. We provide solutions-driven services delivered by a dedicated point of contact, avoiding rigid services or automated phone menus. Think of us as an extension of your operation, committed to improving turnaround and costs.
- **Sustainability:** By identifying and monitoring your carbon footprint, we provide valuable insights into the environmental impact of your transport and logistics operations, forming the basis for setting sustainable targets.
- **Reefer Expertise:** Our team specializes in refrigerated containers, ensuring the best solutions for temperature-sensitive cargo.

Mission & Vision.

OUR MISSION

- Our mission is to consistently exceed customer expectations by delivering superior freight forwarding and global transportation solutions. We specialize in air, ocean, customs brokerage, and logistics services tailored to meet your needs.
- Our dedicated team of professionals is committed to providing exceptional service through advanced technologies, extensive expertise, and a robust infrastructure. Every day, we strive to offer the most efficient and effective solutions in the industry, ensuring reliable and seamless delivery of your shipments.
- Honesty and integrity are the foundations of our company. We approach every customer need with flexibility, focusing on achieving results and ensuring the proper delivery of every shipment.

OUR VISION

- To be a leader—the strongest and most trusted company both nationally and internationally—in the fields of shipping, logistics, and relocations.

Our Keys to Development:

- Desire for Excellence
- Trust and Confidence Building
- Innovation
- Transparency
- Teamwork

We Believe In:

- Motivation
- Collective Responsibility and Leadership
- Professionalism and Ethics
- Adding Value to Our Clients' Needs

Areas of Expertise.

The main strength of Nano Smart Logistics lies in its blend of professional expertise and specialized, highly focused operations. We pride ourselves on enhancing customer awareness, a distinguishing factor that sets us apart from competitors.

Our core strength is the ability to integrate modern management practices with logistics expertise to deliver cost-effective supply chain solutions, products, and services. Nano also recognizes the importance of transferring skills to client personnel, ensuring long-term value and capability development.

Our expertise encompasses the following key areas:

- Air Freight
- Ocean Freight
- Road Freight
- Supply Chain Solutions
- Customs Clearance
- Trade Services
- Break Bulk

Strengths & Capabilities.

- A worldwide network of associates who are market leaders, ensuring global reach and reliability.
- Preferential rate agreements with major shipping lines and airlines, providing cost advantages to clients.
- Dedicated account managers for enhanced customer focus and personalized service.
- Single-window service for streamlined and efficient communication and operations.
- Expertise in logistics, enabling the delivery of tailor-made supply chain solutions to meet unique client needs.
